

Congratulations on your purchase of your:

# **RACING WHEEL / FISSON® WHEEL**

FUT-9380 / FUT-9480 / 35956

Special instructions for use with  
**Colin Mcrae Dirt 2**

Due to the default settings within the Colin Mcrae Dirt 2 software, some manual re-assigning of buttons will need to be preformed to utilise your RACING WHEEL as designed.

To re-assign buttons on your wheel, please follow the simple instructions below:

- 1/ Once game has started, selected your car and once you have reached the start line, press the start button on the steering wheel and PAUSE screen appears.
- 2/ Using the D pad arrow, go down until you get to 'options'.
- 3/ When options is highlighted Press the "X" button to enter the 'options' menu.
- 4/ Whilst controller is highlighted press "X"
- 5/ Using the D pad arrow, go down to 'Function'
- 6/ Use the D pad, arrow down to the function you wish to change.  
ie. arrow down to the 'accelerator' option and when it is highlighted press the "X" button, waiting will appear next to it and then press the accelerator pedal and this will assign the function to the accelerator pedal.
- 7/ Follow the above steps until you have changed all the functions you wish to change.
- 8/ Press the "O" button to exit out until you reach the game play.
