

Congratulations on your purchase of your:

RACING WHEEL / FISSON® WHEEL

FUT-9380 / FUT-9480 / 35956

Special instructions for use with MIDNIGHT CLUB LOS ANGELES

Due to the default settings within the MIDNIGHT CLUB LOS ANGELES software, some manual re-assigning of buttons will need to be performed to utilise your RACING WHEEL as designed.

To re-assign buttons on your wheel, please follow the simple instructions below:

- 1/ Once game has started and you have selected your car, press the start button on the steering wheel to enter Option Menu.
- 2/ Using the D pad arrow, go to the right until you get to 'Settings'.
- 3/ Press the "X" button to enter the 'Settings' menu.
- 4/ While controller is highlighted press "X"
- 5/ Using the D pad arrow, go down to custom controller and when it is highlighted press the "△" to edit the set up of the controller.
- 6/ Use the D pad, arrow down to the function you wish to change.
ie. arrow down to the gas option and when it is highlighted press the "X" button, waiting will appear next to it and then press the accelerator pedal and this will assign the gas to the accelerator pedal.
- 7/ Follow the above steps until you have changed all the functions you wish to change.
- 8/ Press the "O" button to exit out of settings and it will ask you if you wish to save the changes;
- 9/ Highlight yes and press the "X" button.
- 10/ Continue to hit "O" until you return to the game play.
